DOOR EDGE™

PART	SIZE	DESCRIPTION
T9023*	3/8" x 10'	Door Edge Paint Protector
8375-00	5/8" x 10'	Durashield™ Door Edge Guard

- Easily conforms around door edges for premium paint protection
- Visually appealing over traditional door edge molding

DURASHIELD™

Sharpline's Durashield™ offers serious vehicle surface protection against the small stones, insects, and other road debris that can chip, nick, or scratch the exterior of any vehicle. Perfect for damage-prone areas such as hoods, rocker panels, or mirrors. DuraShield™ is virtually invisible and won't diminish the natural aesthetics of the vehicle like "bug shields" and "vehicle bras" tend to do.

DuraShield™ offers unique benefits to meet the needs of any application. DuraShield™ is extremely conformable, and is ideal for complex installations around irregular surfaces. Whatever the application, DuraShield™ is one of the finest surface protection products that you'll never see!

Best Use: Perfect for difficult compound curve installations, such as vehicle bumpers, grilles, or complex sheetmetal. Crystal clear when installed on any vehicle paint color.

- Perfect for difficult areas, such as bumpers, grilles, or rocker panels
- Easily conformable to rounded surfaces and compound curves
- Will not cloud or yellow with age
- Five year limited warranty

DuraShield™ Limited Warranty:

Surface protection FILM products are designed to perform under normal conditions according to product specifications for a five year period from date of purchase, when properly processed and applied. Improper surface preparation, installation, or use of post-application cleaners on urethane surface protection films can invalidate this limited warranty.

APPLICATION SURFACE NOTICE: In most cases, urethane surface protection film can be professionally applied to original factory paint finishes and can be professionally removed, usually in one piece, without damaging painted surfaces beneath the film. Since types of vehicle paint finishes vary, Sharpline Converting, Inc. cannot warrant any urethane surface protection films against damage to the surfaces to which they are applied. Vehicle surfaces may experience paint lifting during application or removal of urethane surface protection films. Repainted surfaces can be more susceptible to paint lifting during the application and removal process. Please evaluate the surface prior to application. Sharpline is not liable for any loss or damages, whether direct, indirect, special, incidental, or consequential that arises out of the use of inability to use these products.

Sharpline Converting, Inc. cannot warrant results for use of this merchandise beyond the cost of replacement of non-usable stock. No other representation is authorized by Sharpline Converting, Inc.

*Packaged as Trimbrite® retail products in overpacks of six (6).
